

# PARTNERSHIP

Successful start-up with Le Burger.

Since the company was founded, the company's inventors have constantly worked on refining and optimizing the concept.

This is particularly evident in the many enthusiastic customers and provides a perfect basis for getting started as an entrepreneur.

No special experience in gastronomy is required for this, because Le Burger trains its franchise partners intensively and comprehensively.

Anyone who loves burgers, has commercial knowledge and If you want to lead employees with persuasiveness and assertiveness, you should get in touch with us.

# REQUIREMENT

Le Burger is looking for locations in traffic areas and prime locations of large cities and shopping centers.

## The requirements for this at a glance:

Size: 150 - 500 m2

Location: Easily visible, well-frequented locations within walking distance with at least 8m window front and the possibility of an outdoor dining area.

Architecture: High ceilings and bright, preferably rectangular rooms to provide space for the show kitchen.

### Technical expansion:

- Ventilation of guest room: supply and exhaust air 12 m3/h/m2, or 10-fold air change
- Ventilation in the kitchen: 15,000 m3/h
- Power connection for at least 90 kW, if necessary per level
- Grease separator
- Installation of commercial refrigeration
- Guest and staff toilet

#### Surroundings:

Exclusive shops with a focus on fashion, sophisticated gastronomy, offices and, at best, apartments.
